

Yahia Alghanam

Data Analyst | Python | SQL | Power BI

yahiaelghanam99@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Cairo, Egypt | +201064623142

Summary

Data-focused Computer Science graduate with practical experience in **data analysis, machine learning, and data pipeline development**. Skilled in extracting insights from structured datasets using **Python, SQL, and Power BI**. Experienced in **data cleaning, exploratory analysis, and building analytical dashboards** to support data-driven decision making.

Hands-on experience working with **large datasets, ETL workflows, and analytical reporting**, with additional experience reviewing and validating structured datasets used for training machine learning models.

Technical Skills

Programming

- Python (Pandas, NumPy, SciPy, Matplotlib, Scikit-learn)
- SQL (SQL Server, MySQL, PostgreSQL)

Data Analysis

- Data Cleaning & Transformation
- Exploratory Data Analysis (EDA)
- Feature Engineering
- Statistical Analysis
- Data Validation

Data Visualization

- Power BI
- Excel (Advanced Formulas, Pivot Tables)
- Data Storytelling & Dashboard Design

Machine Learning

- Supervised Learning
- Classification Models
- Model Evaluation (Accuracy, Precision, Recall)

Data Engineering

- ETL Pipelines
- Data Modeling Fundamentals
- Web Scraping
- Structured Data Processing

Tools & Platforms

- Git & GitHub
 - Jupyter Notebook
 - Google Colab
-

Experience

Warehouse & Logistics Supervisor (Data & Reporting Focus)

Future of Egypt for Sustainable Development – Military Service

Cairo, Egypt | 2025 –2026

- Managed warehouse inventory datasets and ensured **data accuracy for incoming and outgoing stock records**.
- Maintained structured operational data to support **inventory tracking and logistics monitoring**.
- Generated analytical reports to monitor **stock levels, movement trends, and warehouse performance**.
- Implemented standardized documentation processes to improve **data consistency and traceability across operations**.

AI Model Trainer & Data Reviewer – Scale AI (Remote) | 2023 –2025

- Reviewed and validated structured datasets used to train **large-scale machine learning and language models**.
- Ensured **logical consistency, data quality, and accuracy** across complex reasoning datasets.
- Provided structured feedback to improve **data annotation quality and training data reliability**.
- Collaborated with international teams to maintain **high-quality datasets for AI model training pipelines**.

Projects

Global Market Intelligence Dashboard — [GitHub](#)

- Developed a robust data pipeline using SQL Server to ingest and transform raw market data (Gold, USD, EUR, SAR) into a refined Gold Layer (Medallion Architecture).
- Implemented complex stored procedures to calculate dynamic metrics such as Market Volatility, Inflation Shocks, and currency trends, ensuring data accuracy and real-time responsiveness.
- Designed a high-end Power BI dashboard with a custom-built navigation pane, enabling stakeholders to track macroeconomic indicators and purchasing power erosion.
- Optimized query performance and data modeling to handle historical trends and predictive insights, reducing reporting latency for the International Steel Agency.
- **Tools Used:** SQL Server (T-SQL), Python, Power BI, Power Query (M), DAX, Medallion Architecture.

Restaurant Sales Dashboard — Power BI, SQL, Excel — [GitHub](#)

- Built an interactive Power BI dashboard analyzing **1,000+ sales records** to identify revenue trends and top-performing products.
- Used SQL to **clean, transform, and prepare sales data for reporting**.
- Visualized key metrics including **daily revenue, top-selling products, and customer trends**.

WUZZUF Job Data Pipeline — SQL, Web Scraping — [GitHub](#)

- Developed a **web scraping pipeline** to collect job postings from the WUZZUF platform.
 - Stored extracted data in a **structured SQL database for querying and analysis**.
 - Enabled analysis of **in-demand skills, job roles, and hiring trends in the Egyptian tech market**.
-

Education

Bachelor of Computer Science & Information Technology | Minia University – Egypt

- **Major:** Data Science & Information Systems Technology
 - Graduated: June 2024
-

Certifications – [Certifications](#)

- Data Analysis Professional Certificate – Coursera (IBM) - 2024
 - Data Analysis Training – ITI - 2024
 - Natural Language Processing Specialization – DeepLearning.AI 2023
 - Deep Learning Specialization – DeepLearning.AI - 2023
 - Artificial Intelligence Training – ITI - 2023
 - Additional certifications are available upon request.
-

Languages

- **Arabic** – Native
 - **English** – Professional Working Proficiency
-

Additional Information

- **Military Service:** Completed
- **Availability:** Immediate
